
4.0 HAZARD ASSESSMENT POLICY

The purpose of this policy is to ensure that a Hazard Assessment is conducted where necessary.

Because of the our unique business and the fact that we can be at several jobs per day the **Hazard Assessment** will usually consist of the **Field Level Hazard Assessment Sheet**.

Hazard Assessment should take place at the beginning of each job. Where hazards have been identified, these hazards should be eliminated. Where this is not possible, each employee should be made aware of the hazard.
