

Kraig Gramlick, B.Sc.
Engineer-in-Training

Education

University of Alberta – B. Sc., Civil Engineering, 2007

Northern Alberta Institute of Technology – Diploma, Electrical Eng. Technology, 1996

Registrations

Engineer-in-Training – Province of Alberta

Experience Summary

Shortly after graduating from the University of Alberta, Mr. Gramlick moved to Grande Prairie and joined the Beirsto Lehnerts Ketchum Engineering team as a Junior Engineer. Prior to this Mr. Gramlick, spent two summers with Associated Engineering in Edmonton as resident engineer on various municipal construction projects. As a resident engineer, Mr. Gramlick was responsible for quantity tracking, coordinating and facilitating meetings between project parties and acting as a liaison between client, contractor and project engineer. In addition to this, Mr. Gramlick also aided in the surveying aspect of the projects, doing topographical, construction layout, and as-built surveys where required.
